

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Are you a hands-on problem solver?
Are you comfortable multitasking?
Are you a detail-oriented, independently driven analytical thinker? If so, you may be a great fit for CSU-Global's B.S. in Information Technology degree program.

You may be considering IT for the first time, or you may already be working in the field and anticipating your next position. Either way, we can help you discover your own path to professional success. Our online program prepares you for real-life situations so that you can bring your extensive knowledge of computers, programming, network analysis, and more to the teams and organizations that can benefit from them most.

You already know the love you have for technology. You already know the problems you've solved and the great work you can do. If you're not doing that great work today, or if you know you'd like to do a lot more of it tomorrow, get in touch.

Traits That Help You Succeed in the Field¹

TECH SAVVY

PROGRAMMING

The Bachelor of Science in Information Technology program is designed to train individuals for information technology jobs and prepare graduates for professional certification exams (CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA Project+, Microsoft SQL, Microsoft Server 2008, etc.) that enhance student job market value. Specializations in multiple subject matters will provide enhanced targeted skills and additional certification preparation. Upon completion of the degree program, students will have a foundational and practical knowledge across the field of information technology.

Degree Optimization

CSU-Global offers Awards of Completion and Skills Endorsements to help you spotlight the knowledge, skills, and abilities that hiring managers find essential to success in the field. Visit csuglobal.edu/ug-degree-optimization to learn more.

In the Bachelor of Science in Information Technology program, you will earn the following Awards of Completion, documenting your mastery of these subjects:

**Information Systems
Management and Architecture**

**Network and Information
Security Analysis**

750,900

Expected related job openings due to growth, replacement, and retirement between 2012-2022²

Why CSU-Global?

CompTIA PARTNER

 We are proud to have partnered with CompTIA to bring students discounted rates when registering for any CompTIA exam. Contact us today to learn more about these reduced exam fees and how these exams can help prepare you for your future in the field of information technology.

AFFORDABILITY

 Check out our standard, military, and affiliate tuition rates and see what you could be paying from your very first class until graduation. No surprise tuition hikes. No hidden student fees. No out-of-state charges. And a Tuition Guarantee ensures your low rates won't rise before you complete your degree.

QUALITY

 With accreditation reaffirmed at regular intervals, annual programmatic appraisals by professionals working in the field, and faculty members with advanced degrees and first-hand industry experience, you can be sure you're getting a rigorous and relevant education.
