

— MASTER OF SCIENCE IN — TEACHING & LEARNING

Do you love teaching? Do you love education? Are you thrilled by the prospect of helping students develop their own love of knowledge? Our Master of Science in Teaching and Learning can help you put your passions to great and important use. Student performance can be strongly impacted by having an effective educator at the head of the classroom, and that educator might be you.

You can customize your learning experience with a licensure that you will earn alongside your degree, allowing you to focus on a specific subject area or on becoming a school principal. We help you tailor your academic experience to prepare you to be the effective educator that students and school districts need today.

If you're ready to take your teaching and learning skills to the next level, or to earn your licensure in a specialty subject or as an administrator, get in touch and let us help you get started today.

MASTER OF SCIENCE IN TEACHING & LEARNING

CSUGlobal.edu/MSTL • 800-920-6723

The Master of Science in Teaching and Learning program elevates students' leadership competencies, intellect, and professional knowledge of K-12 educational best and emerging practices. The program is designed to develop educational leaders through its emphasis on instruction, research-based practices, and program development and management in K-12 learning environments and non-traditional settings. Through a curriculum that is both rigorous and relevant and that implements and assesses project-based outcomes, students will gain techniques for the promotion of lifelong learning and academic excellence as well as learn to analyze and evaluate teaching and learning principles to meet specific educational needs.
